

I AM THE NCR ACCUVIEW

Order Confirmation Board

Improve order accuracy and increase average check size

One cheeseburger combo with mustard, no tomato, fries and a diet drink. One kids meal with ketchup only, apples and a chocolate milk.

With the NCR Accuview Confirmation Board, customers can view their entire order and see the total price before moving up. They receive their correct order and drive away happy.

Visual Confirmation Works

Improve Order Accuracy

Customers can see exactly what they ordered and the price, resulting in fewer questions at the total. We can help you avoid costly errors up front so that food delivery and payment is correct every time.

Drive product sales

Tempt hungry drivers with breakfast, lunch, dinner and late-night offers by automatically switching images and messages for each daypart. You can offer promotions and suggestions to up-sell and cross-sell related menu items, which increases the average check size.

Increase profitability

Discourage overcharges and employee theft by displaying the total amount due at time of order. Ensuring correct payment prevents lost revenue and reduces labor costs.

Keep lines moving

You can help customers make fast decisions with appealing photos of food items. When people know the total amount due at time of order, they can prepare for payment in advance and be on their way.
